

December 7, 2016

To: Motorola Solutions suppliers

ACTION REQUIRED: Register with Motorola Solutions for Electronic Data Interchange

Dear Valued Supplier:

As previously announced, Motorola Solutions is transforming the systems and processes we use to sell, order, make and deliver products and services to our customers. It will make it easier for you, our valued supplier, to do business with us.

As part of this initiative, Motorola Solutions has partnered with Transcepta to electronically exchange information for purchase orders (from MSI to suppliers), purchase order acknowledgements (from suppliers to MSI), advanced shipment notices (from suppliers to MSI), and customer invoices (from suppliers to MSI). Transcepta's simple service is provided at no extra cost to suppliers, and it will provide faster processing and better visibility into transactions.

Please [register with Transcepta](#) by Dec. 21 so that you can begin using these services when our new systems go live in early 2017.

Transcepta will contact you after you have completed your registration. They will coordinate the activation of your connection which will coincide with Motorola Solutions' system implementation timeline. Please email [Transcepta](#) for assistance with registration and connections or email [Motorola Solutions](#) with any other questions.

We will share more information about upcoming changes with your designated point of contact over the next few months. Thank you for your support and continued partnership. Please register with Transcepta now at <http://connect.transcepta.com/motorola>.

Regards,

Lisa Stenglein
Chief Procurement Officer and Vice President
Motorola Solutions, Inc.
