Effective immediately, all Raytheon Technologies' suppliers submitting Purchase Order (PO) invoices in support of former UTC Corporate, UTC Research Center and/or Pratt & Whitney are being requested to begin submitting their invoices through the Transcepta Electronic Network. This process is free, safe, and efficient for both supplier and Raytheon Technologies.

Electronic invoice delivery through Transcepta reduces the risk of losing invoices sent in via email, while also reducing mail time for invoices sent in via regular mail. Transcepta has an electronic connection to Raytheon's accounts payable system, which means faster and more efficient receipts of invoices. Faster receipts of invoices ensure they are processed in a timely manner before their due date. Raytheon is working to eliminate receipt of invoices by mail and by email.

By sending invoices electronically over the Transcepta procure-to-pay supplier network, suppliers are assured:

- Immediate, secure invoice submission with guaranteed delivery of invoices to Raytheon's Accounts Payable
- Automatic notification of failed invoices, which expedites corrections and payment
- Greater visibility into the invoice delivery process, tracking invoice status via confirmation emails from Transcepta or through the Transcepta supplier web portal
- No fees to submit invoices to Raytheon
- No requirement to change your existing billing system, invoice format, or to engage in an intensive IT project. Initiating supplier registration with Transcepta takes only a few minutes.

Raytheon Technology suppliers are strongly encouraged to register and begin submitting all of their PO invoices through Transcepta as soon as possible. As of the 15th of April 2022, Accounts Payable will no longer accept PO invoices submitted by any other means.
